Our Company

● We have created a perfect, protected environment for our plants to grow and flourish.

MA True Cannabis was born in 2018 with the aim of redesigning the CBD Cannabis market internationally.

Based in Switzerland, in the Canton of Ticino, we proudly produce the **best CBD Cannabis Inflorescences worldwide.**

A young and dynamic team takes care of every step of the process in detail, **from the entirely organic cultivation to the sale.** Which takes place online through the matrucecannabis.com website, the eCommerce wins a lot of awards, **such as the eCommerce of the year for Awwards.**

A very high-quality Swiss product with great and historic properties.

The company produces Inflorescences in a plant that boasts the best technology for the growth of Indoor plants with high CBD content.

Our Production

- We have created a perfect, protected environment for our plants to grow and flourish.

discover our

production process

Indoor True Cannabis production: combining nature, technology and passion.

For MA True Cannabis, we have optimized the concept of indoor cannabis production: eco-friendly, pesticide free, meticulous care for our plants and a passion for technology, research and development. These are the elements with which we have contributed towards defining a new international standard of True Cannabis production.

We have created a perfect, protected environment for our plants to grow and flourish.

Our indoor cultivation features revolutionary low energy consumption LED lighting systems, a unique air conditioning system, the use of entirely organic components throughout all stages of the growing process and development of our plants.

Nature meets science, all supported by the ambition and talent from our team of agricultural engineers.

Nature as technology

Nature's ingenious solutions have helped in the protection of our harvest, becoming an essential and inspirational element of our technology.

Growing plants while respecting the environment is an important challenge that **MA true cannabis** has embraced as an authentic business philosophy.

Relying on entirely organic elements and with the aid of the most recent biodynamic techniques, this guarantees a **Cannabis Flowers production with a unique global quality. 100% organic, with no harmful chemicals**

OUR INDOOR PRODUCTION FACILITY

A team of skilled Botanists and Industrial Production experts guarantees the repeatability of our cultivation process, ensuring the highest quality products at every harvest.

OUR SUPERLATIVE TEAM

A team of skilled Botanists and Industrial Production experts guarantees the repeatability of our cultivation process, ensuring the highest quality products at every harvest.

OUR PRODUCTS

We dry and cure every harvest to perfection before being enclosed in vacuum-sealed bags for storage.

Every bag has all the necessary information to identify the specific batch it came from, keeping the supply chain perfectly under control.

CARAMEL CANDY

- Compact with caramel shades

Compact Cannabis Flower with caramel-like color, characterized by fresh lemon and pine scent.

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	9.50

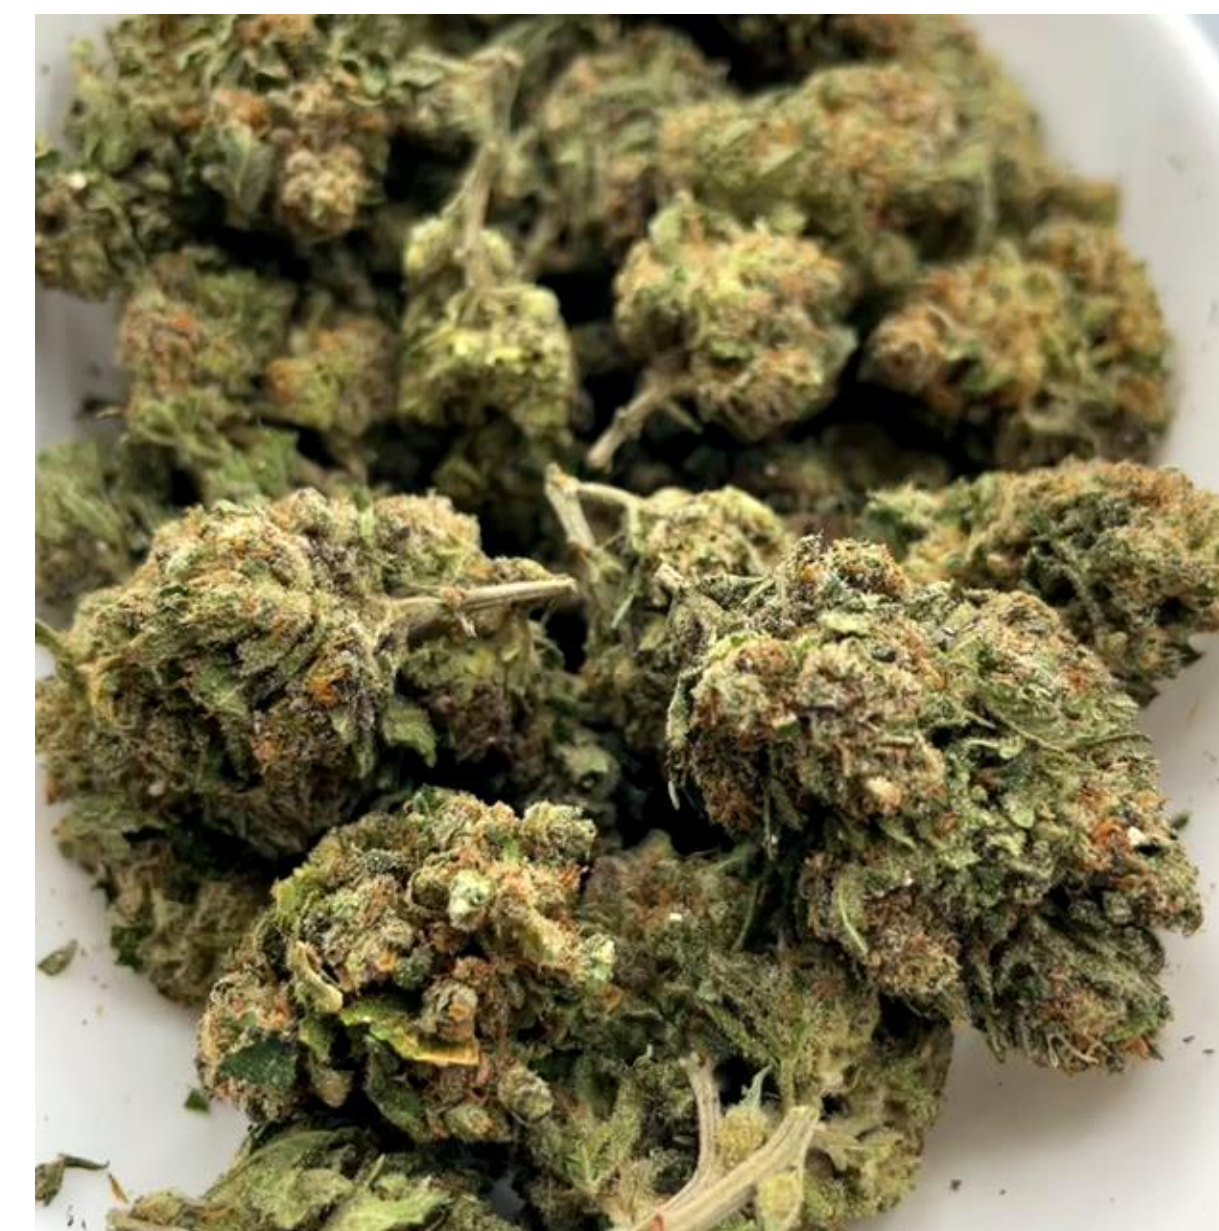

HARLEQUIN

- **Dense, deep green Flowers**

The color of these flowers is reminiscent of intense forest foliage: deep green becoming lighter at the sun kissed flower tips. Compact and dense at the base, opening at the top almost as if they were trying to reveal a soul in search of freedom.

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	11.60

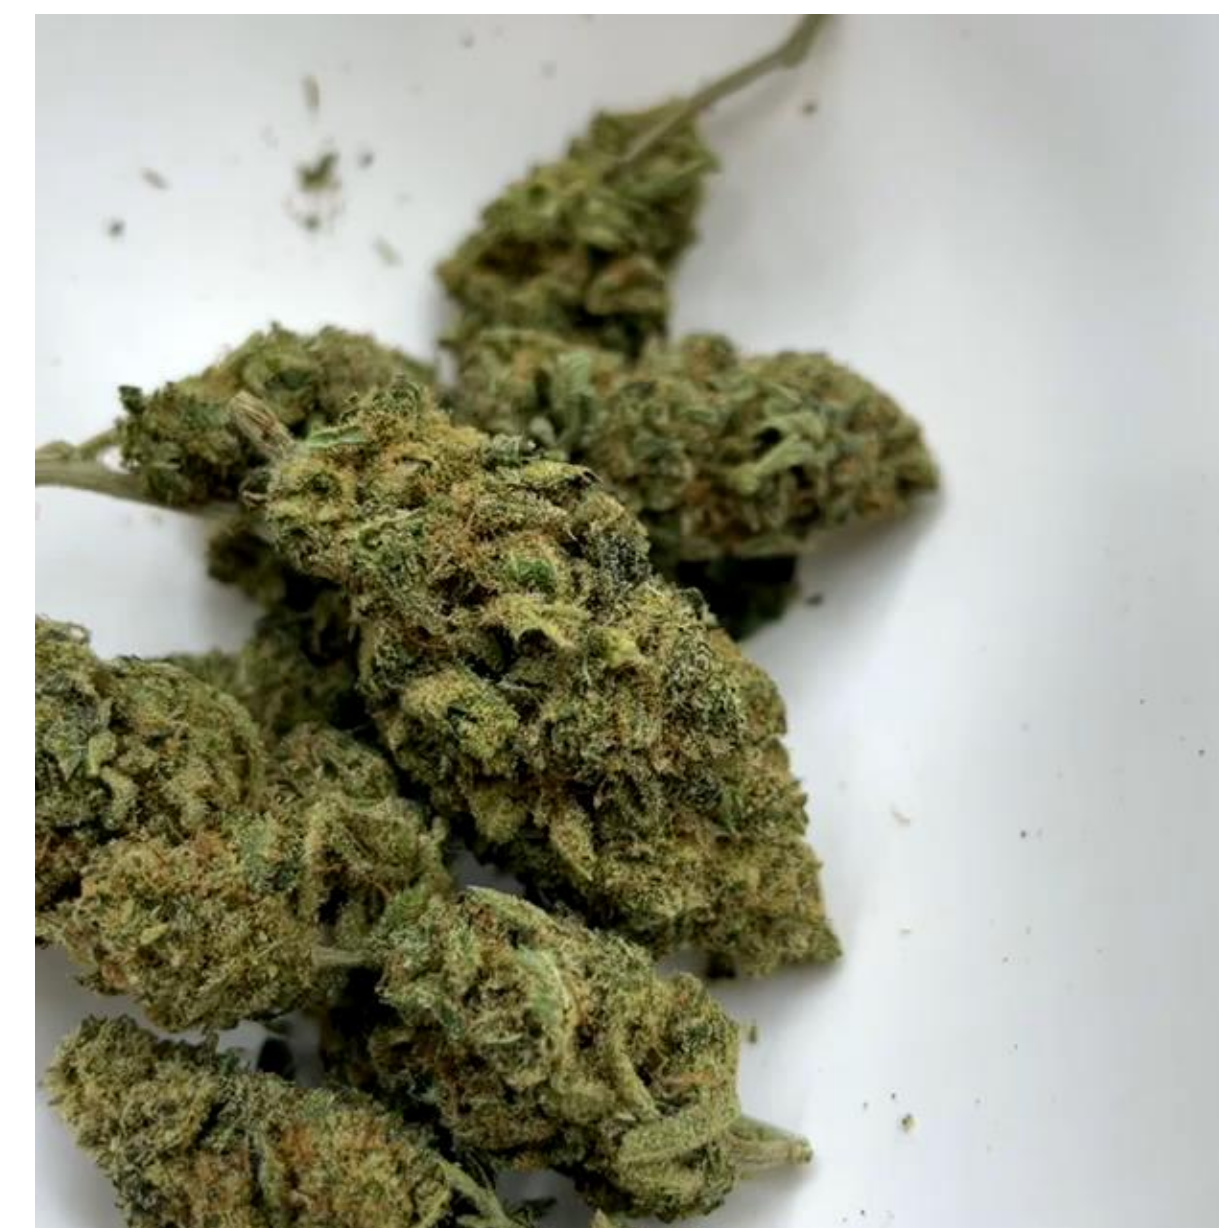

V1

- **Copper shades and fresh scent**

Shades of light green and copper and a fresh, euphoric and stimulating citrus scent.

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	16.30

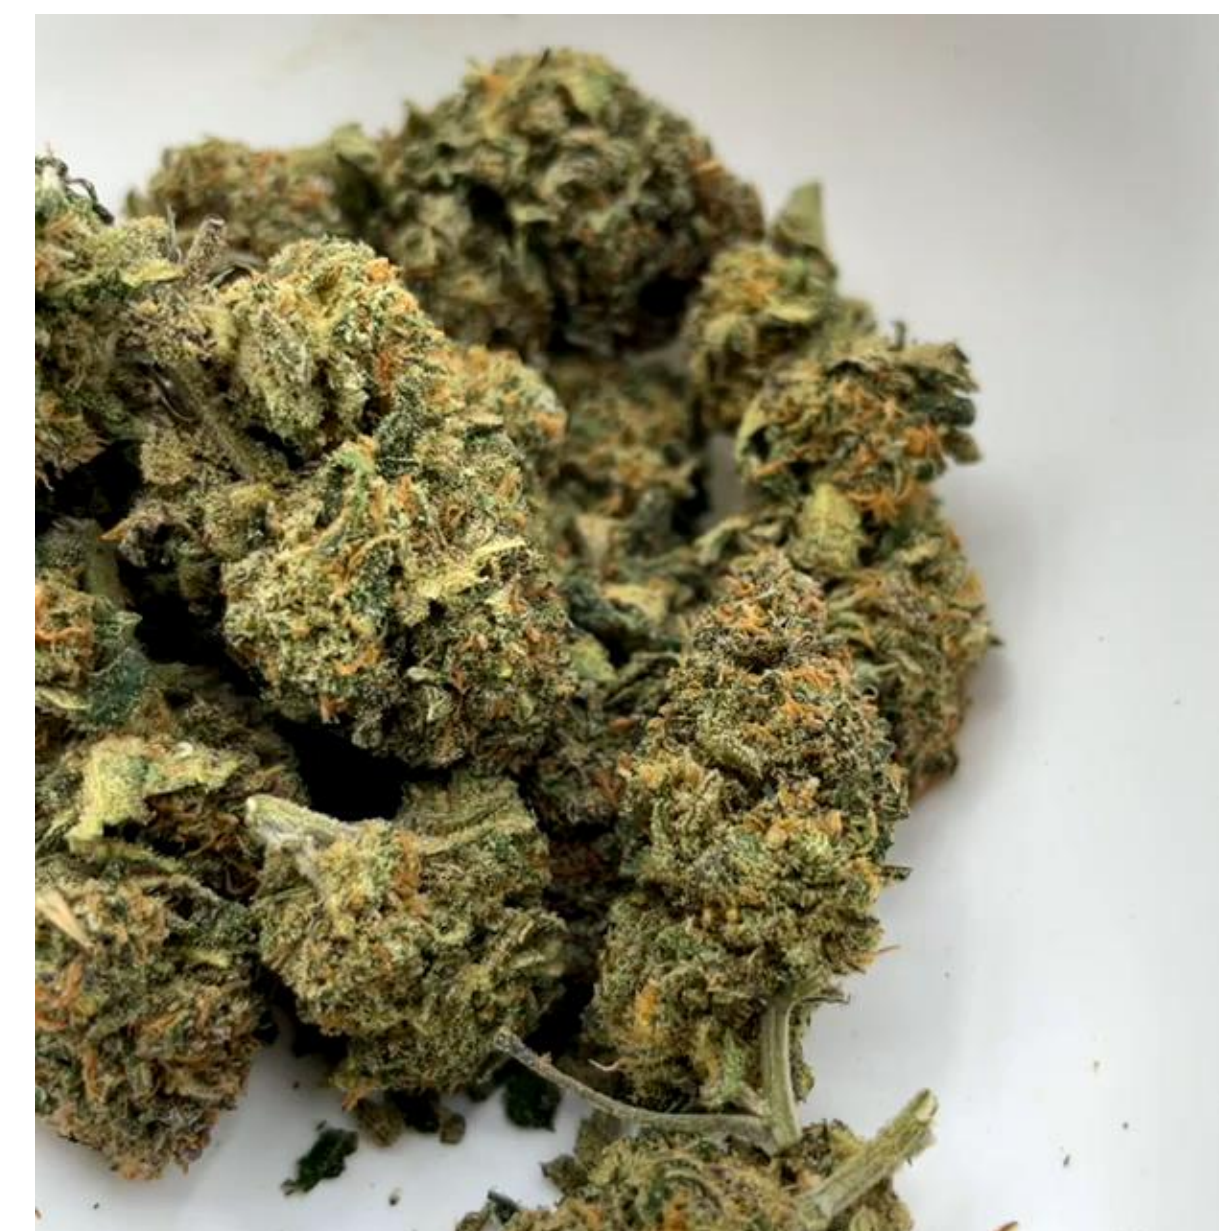

STRAWBERRY

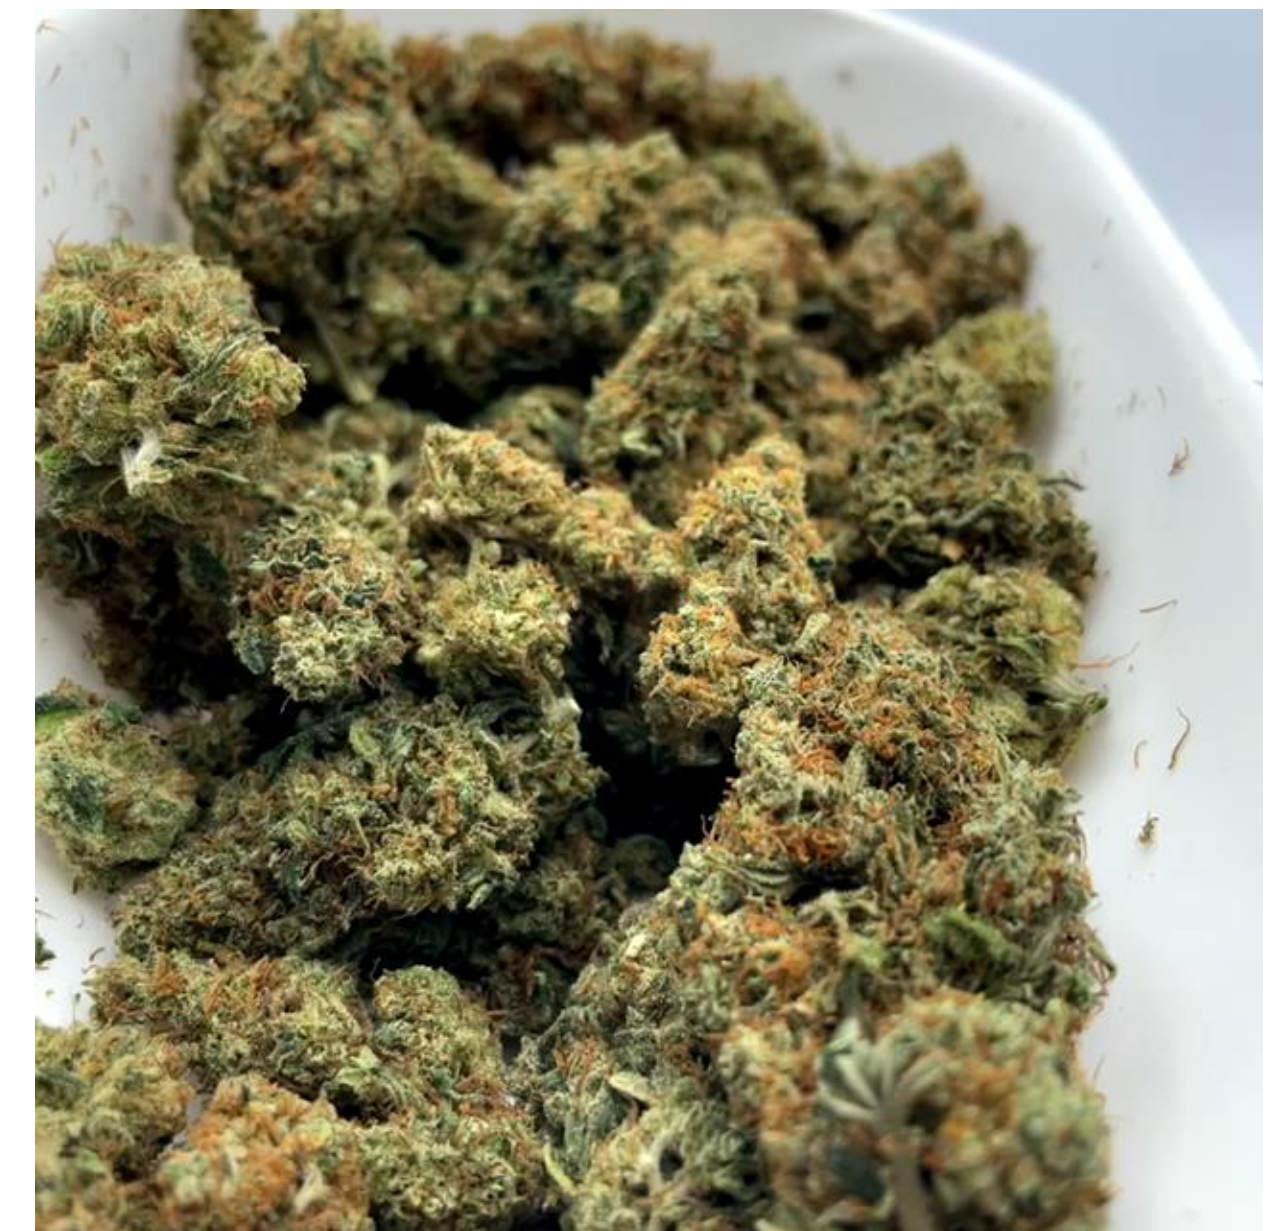

- Opaque green with red fruits scent

Compact, full of resin, these flowers color is characterized by vivid opaque green tones, veering towards copper. The scent is embracing and soothing, with hints of wild strawberries, blackberries and other red fruits.

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	11.60

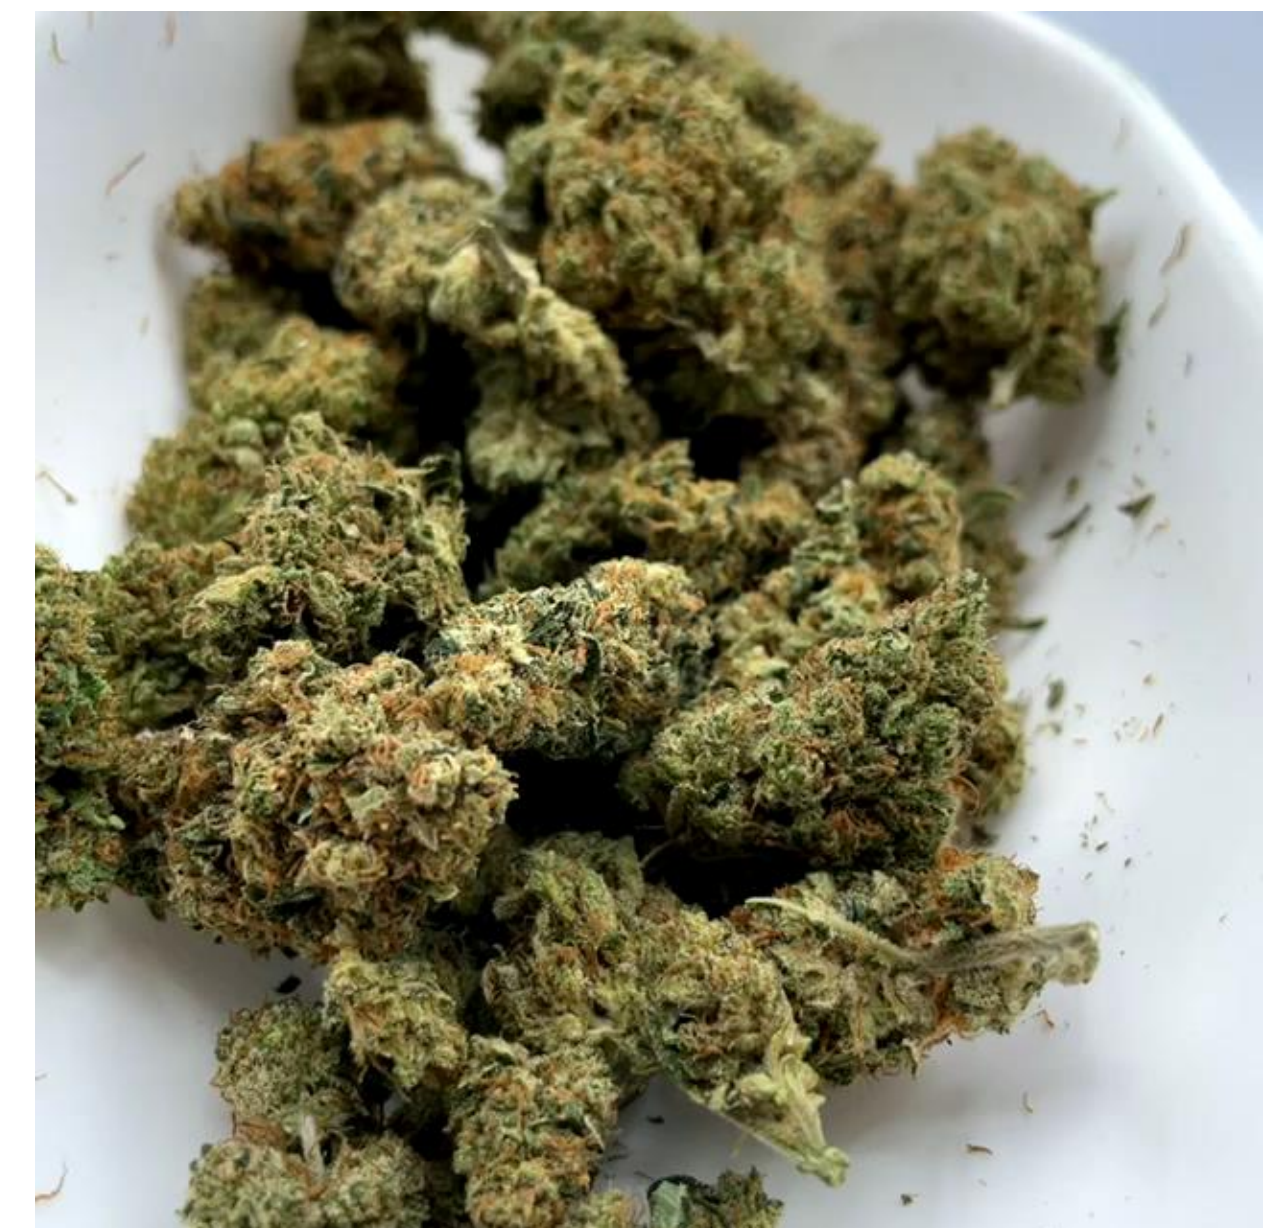

SANGRIA

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	11.40

ACQUAWOMAN

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	11.90

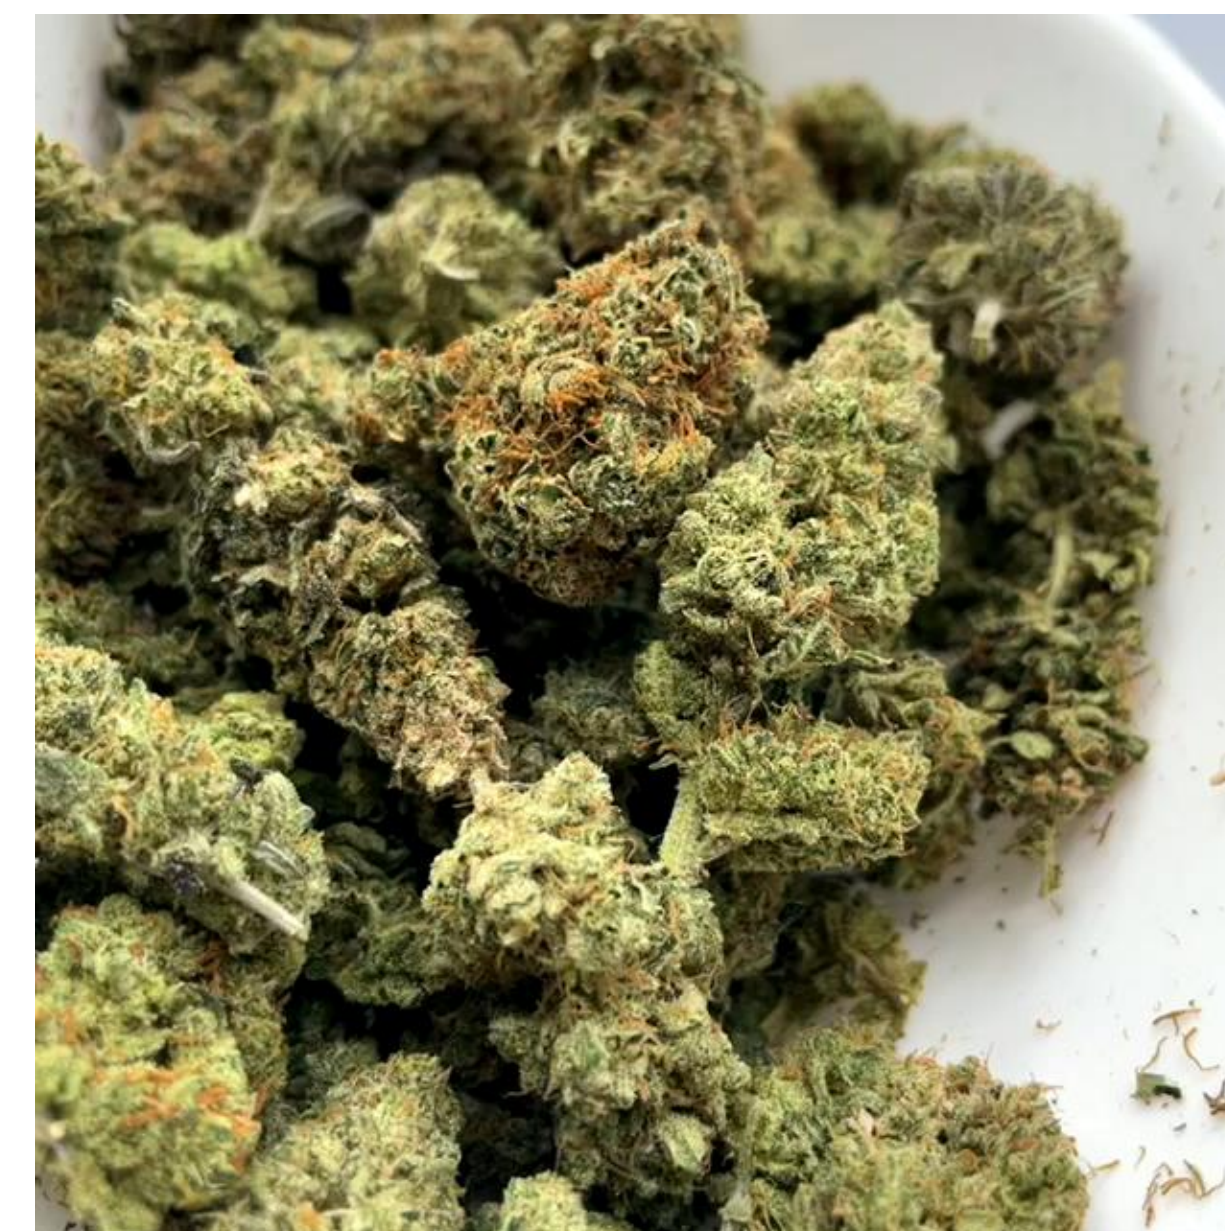

GNO

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	12.00

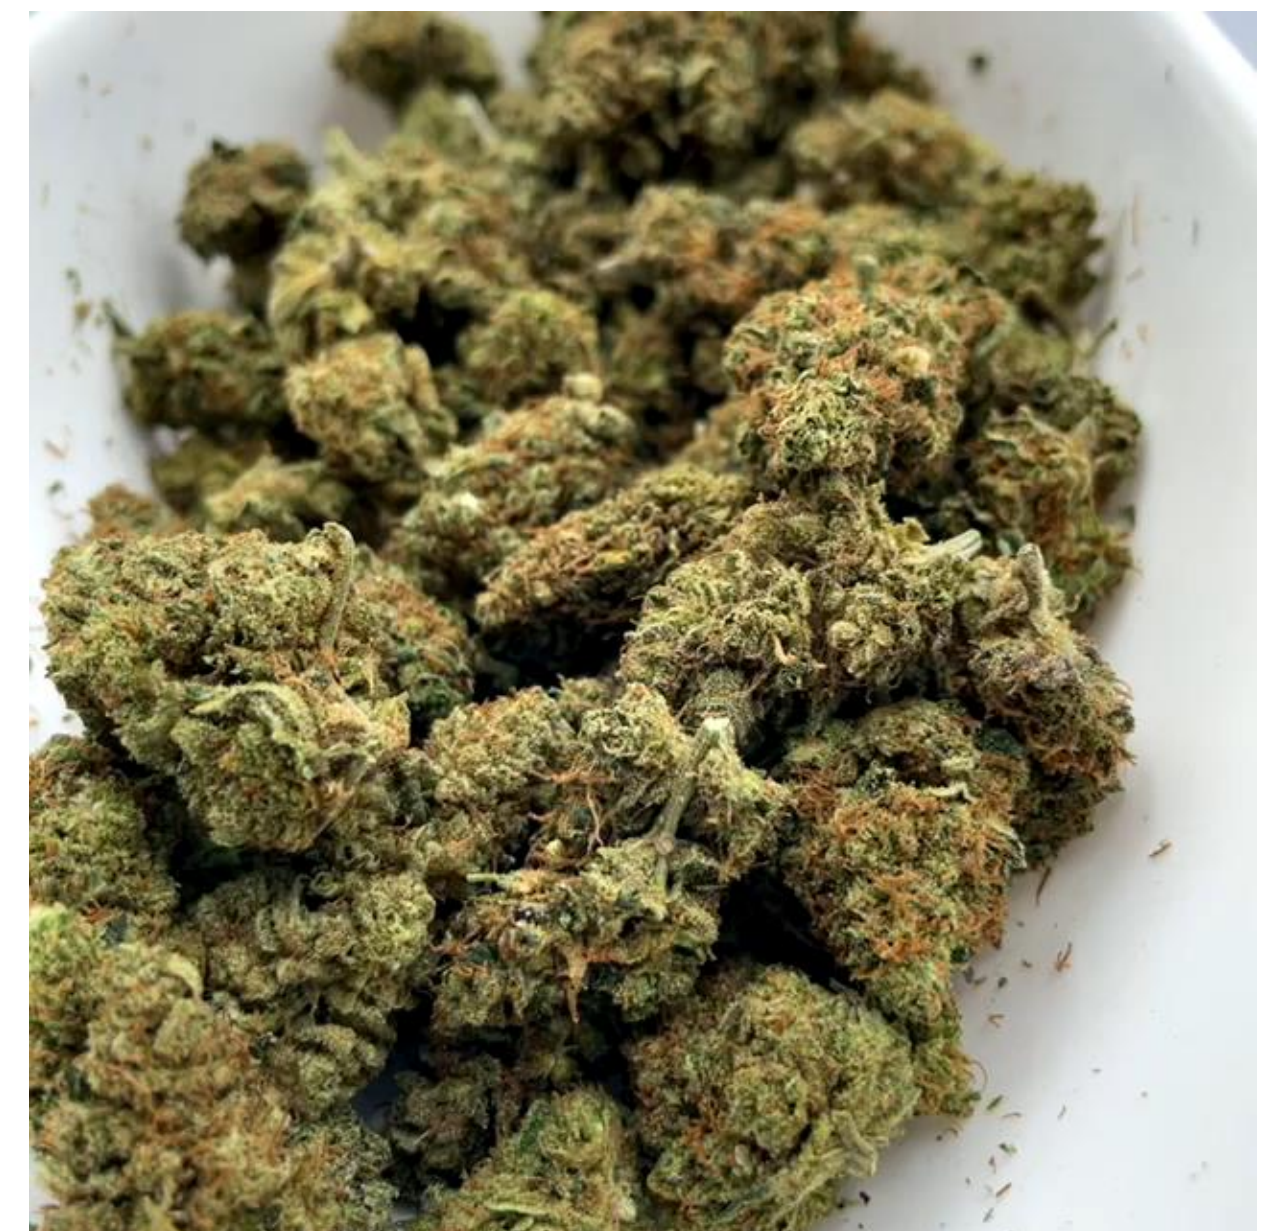

PURPLE COWBOY

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	11.00

OGC

	%THC (avg)	<0.2% or <1.0%
	%CBD (avg)	11.50
